OUR HERITAGE

Welcome to The Hill Station

Since 1938, The Hill Station has welcomed generations of guests and travelers to the cool highlands of Jos. Today, our iconic stone architecture, rich heritage, and contemporary hospitality create a destination where timeless character meets modern comfort.

Nestled within the cool highlands of Jos, The Hill Station is a contemporary luxury destination with a story unlike any other. For nearly a century, its distinctive stone architecture has welcomed travelers, dignitaries, explorers, and generations of families to Plateau.

From 1938 to a New Chapter of Plateau Hospitality

EVOLUTION

From 1938 to Tomorrow

The story of The Hill Station began in 1938, and over the decades, its corridors welcomed remarkable guests and witnessed defining moments in history. In 1956, Queen Elizabeth II visited The Hill Station during her journey through Nigeria. Years later, political leaders, military officers, and influential figures would also pass through its doors, adding new chapters to a story that continues to unfold.

Today, we honor that legacy through thoughtful restoration and modern innovation. Preserving the character of our iconic stone architecture while embracing contemporary design, sustainable energy systems, wellness facilities, and elevated guest experiences, we have reimagined The Hill Station for a new generation.

*The spirit remains.
Only experience has evolved.*
